PROFESSIONAL SUMMARY

Computer Science student in my third year at Future University in Egypt, with a strong focus on cybersecurity. Passionate about network security, ethical hacking, and protecting digital systems from evolving threats. Proficient in Kali Linux with hands-on experience using its tools for penetration testing and security analysis. Seeking a cybersecurity internship where I can apply my skills, gain real-world experience, and contribute to a security-conscious team.

EDUCATION

Bachelor of Computer Science in Cybersecurity

2023 – 2027

Future University in Egypt | Cairo, Egypt

SKILLS

Technical: Kali Linux, Wireshark, Nmap, Metasploit, Python, Bash Scripting, Linux, Networking (TCP/IP, DNS, HTTP), HTML/CSS, React

Professional: Leadership, Project Management, Problem Solving, Teamwork

Languages: Arabic (Native), English (Fluent – CEFR B2+)

CERTIFICATIONS & TRAINING

Mastercard Cybersecurity Job Simulation – Forage

May 2026

- Designed a phishing email simulation to assess employee vulnerability awareness
- Interpreted phishing simulation results and presented actionable security recommendations

Skyscanner Front-End Software Engineering Job Simulation – Forage

May 2026

- Built a Backpack React Web App as part of a front-end engineering challenge

Versant English Placement Test – Pearson

July 2023

- CEFR B2+ | Overall: 62 | Speaking: 60 | Listening: 63 | Reading: 62 | Writing: 76

PROJECTS

Document Authentication System Using Digital Signatures

- Developed a system to verify the integrity and authenticity of documents using cryptographic digital signatures
- Implemented RSA-based signing and verification algorithms to detect unauthorized tampering
- Built with Python, demonstrating applied knowledge of cryptography and secure systems design
